

***You are a post-doctoral
researcher with
international experience?***

BIENVENÜE

**is funding your research
projects in Brittany!**

Région Bretagne is welcoming young international researchers to reinforce research excellence in its key priorities as identified in its Smart Specialisation Strategy – RIS3 (Secure and responsible digital economy, food economy for everyone to eat well, industry for intelligent production, maritime economy, health and welfare economics for a better quality of life, transitions).

Through its Bienvenüe programme and its 3 financial schemes (Bienvenüe Bretagne, Bienvenüe Seal of Excellence and Bienvenüe+), it contributes to the recruitment of high-level international postdocs in Brittany for research projects of 12 to 24 months.
